Black Tie Award Recipient

The International Formalwear Association is widely recognized as the leading professional organization representing men's formalwear and was founded in 1973. Every year the IFA awards an individual the Black Tie Lifetime Achievement for long standing commitment to the formalwear industry. The award acknowledges a recipient whose operation maintains superior standards that determine the measure by which others are gauged.

In 2008, Ramon Comellas – founder of the Tuxedo Warehouse – was presented the Black Tie Award at Expo 27 in Las Vegas. With more than 50 years in the industry, Ramon and his family continue to uphold the standards of the formalwear industry.

Men’s Portly Sizing

Men’s sizes are based on height and chest measurements, with regular suits featuring a 6-inch "drop" or difference between the chest and waist of the suit. Portly men don’t have as big of a difference between the chest and waist size, so the drop on a portly suit is 4 inches. (By Maggie McCormick)
